

Because format quality matters

Membership Application Form

The UK Association for Accessible Formats is the industry association whose mission is to improve the social inclusion of blind and partially sighted people, and others with a print impairment, by promoting the availability and quality accessible formats.

It does this by:

- setting standards and promoting best practice for quality accessible information based on user needs, and,
- enabling businesses and organisations to deliver a quality service to meet the needs of people with print impairments.

If you are involved in providing services or products to people with print impairment, or producing or using accessible formats, join UKAAF and add your weight to the drive to improve the availability and quality of accessible formats in the UK.
